Education

Guangdong University of Foreign Studies (GDUFS) Bachelor's Degree Spanish Philology Sep 2021 - Jun 2024

GPA: 3.87/4.0, Top 5%; Graduation Thesis: **Phonetic Transfer from Wu dialect to Acquisition of Spanish Stops**

University of Alicante (UA) Exchange Program Spanish Linguistics Sep 2023 - Jun 2024

GPA: 8.92/10.0; **Teaching language: Spanish**; Selected Courses: Introduction to Linguistics, Spanish Phonetics and Phonology, Spanish Sociolinguistics and Dialectology, Spanish as a Second Language Acquisition, Audiovisual Translation

Pompeu Fabra University (Barcelona) (UPF) Master's Degree Computational Linguistics Sep 2025 - Apr 2026

Pompeu Fabra University – **Linguistics (QS ranking: 65)**; **Teaching language: English**

Courses: Natural Language Processing, Computational Semantics, Corpus and Informatic Tools, Experimental and Observational Techniques, Phonetics and Phonology, Syntax, etc.

Internship Experience

ByteDance (Shanghai), Data-Speech Group Spanish Linguistics Intern (NLP) | 1 year Jul 2024 - Jul 2025

➤ **Linguistic Support:** Designed Spanish phonological rules, built Spanish phonetic test sets, and supported optimization of Spanish TTS models.

➤ **Product Research and Localization:** Conducted popular voice surveys, developed Spanish voice datasets, and supported localization strategies for Latin American markets.

➤ **Project Management and Evaluation:** Managed full lifecycle of Spanish voice library (research, coordination, QA), organized TTS data, evaluated Spanish video dubbing. Several voices ranked in TikTok, Capcut Latin America's Top 10

➤ **LLM Evaluation:** Conducted emotional continuity evaluation and analysis; supported deployment of real-time voice LLM outperforming GPT-4o in Mandarin, fully launched on Doubao before Chinese New Year of 2025.

Project Experience

National Chinese Language Resources Protection Project - Transcription of Dialectal Oral Cultural Data Corpus Linguistic Fact Specialist | 1 year Jun 2023 - Aug 2024

As a Linguistic Fact Specialist, utilized **Yubao** annotation tools to label and verify dialect EAF recordings files from over 30 locations. Held academic meetings with more than 60 expert professors from various universities, provided feedback, and requested corrections. Contributed to the mid-term inspection and pre-acceptance process of Phase II of the National Project.

Dialects covered: **Cantonese**, Hokkien, Hakka, Wu, Southwestern Mandarin, Jilu Mandarin, and Jiaoliao Mandarin.

Project Achievements: approved under the National Language Resource Protection Project (Code: YB2401A004), with funding of RMB 250,000, led by my supervisor, Yang Huijun, Associate Professor at Guangdong University of Foreign Studies (GDUFS).

Phonetic Transfer from Wu dialect to Acquisition of Spanish Stops Undergraduate Thesis Sep 2024 - Apr 2025

Designed and conducted in-person phonetic perception and production experiments with 18 participants at SISU (Shanghai International Studies University).

Designed and ran an online phonetic perception experiment with 35 participants using PsychoPy and Pavlovia.

Public experiment link for replication and testing: <https://run.pavlovia.org/hanlin/perception1>
